Features

Everything an admin needs, nothing they do not

Register guesthouses

Photos, amenities, price and location in one form. Hide a listing any time.

Track ratings

See the top-rated stay, the busiest city and rating trends.

Manage people

Add admins and disable customer accounts when needed.

How it works

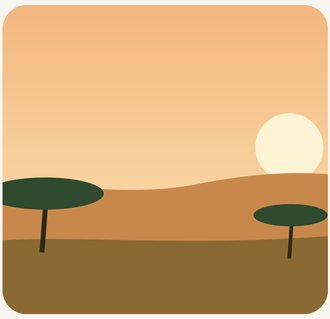

From listing to discovery in three steps

1. **Register a guesthouse**
   An admin adds the details and photos.
2. **Travellers discover it**
   The mobile app searches by name or place, cheapest first.
3. **Customers rate and save**
   Ratings and favourites flow back to your dashboard.

Botswana has stays beside rivers, under baobabs and across open savanna. Dumela Stays helps every one of them be found.
